Comments:

9/13/2000 - Site inspection to determine if full release of this site can be accomplished.

8/4/00 - Received copy of BLM 1997 inspection report - stating county road is not operator responsibility but is authorized under a ROW. Operator was allowed to leave the dikes & ditches on the lake bed. The BLM owns the well and water tank. The access road from the county road of the diks has been revegetated successfully. BLM recommends their case file be closed. (NOTE: DOGM needs to inspect and take photos before closing file).

7/27/00 - Tom Munson phoned BLM and was advised that BLM recently performed inspection of this site and it is ready to close. BLM has already closed their file. As this is on BLM managed lands, DOGM can also file. Need Director authorization to release site and bond.
